

HOC Release Notes 3.0.10.12 (Aug 27, 2020)

This release includes bug fixes that address occasional errors from forms, updates to create greater consistency in configuring CMS components, subsite page creation improvements, bug fixes for ARS Login workflows, and a number of things most users will never experience. But we're always happy to fix the rare bugs that can occur under some circumstances. Here's

Links/Buttons in Image Slider Block can be set to open in same window (default) or a New Tab (HOC3-12307)

The screenshot shows a configuration interface for a 'SLIDES' block. On the left, there is a preview of a slide with a photo of three people in a warehouse. Below the photo are 'Browse' and 'Delete' buttons. To the right of the photo, there are fields for 'Title' (9015 Demo Testing Site v1), 'HTML alt' (picture of volunteers), and 'Weight' (0). Below these are fields for 'HTML title' and 'Type of Link' (In Button). A dropdown menu for 'Open in:' is open, showing 'Same Window' (checked) and 'New Tab' (selected). Below the dropdown are fields for 'Button Title' (Search for Volunteer Opportunities) and 'Link to:' (/search).

Listing Block: More control over Slider Display Format (HOC3-10794)

Listing blocks that display Content Types can have three display formats:

- List
- Grid
- Slider

This enhancement brings additional controls to listing blocks using the slider display format. The slider controls include:

- Disable Auto Play
- Effect: Slider (default), or Fade
- Show Navigation (yes / no)
- Autoplay Timeout
- Items per slide

The screenshot shows a configuration interface for listing blocks. At the top, there are dropdown menus for 'Source' (Content Types), 'Display Format' (Slider), 'Sort' (Created Date), and 'Sort Direction' (Ascending). Below this is a section titled 'SLIDER SETTINGS' which contains: 'Disable Auto Play' (checkbox set to No), 'Effect' (dropdown set to Slider), 'Show navigation' (checkbox set to No), and 'Autoplay Timeout' (input field set to 1). Below that is a section titled 'GENERAL SETTINGS' which contains: 'Display Read More' (checkbox set to No), 'Display Search Section' (checkbox set to No), 'Display Number of Results' (checkbox set to No), 'Content Types' (dropdown set to Select a Content Type), 'Display Summary' (checkbox set to No), 'Display Paging' (checkbox set to No), 'Number of Items' (input field set to 0), and 'Include Sub-Types' (checkbox). The 'Items Per Page' field is also set to 0. Red boxes and arrows highlight the 'Display Format', 'Disable Auto Play', 'Effect', 'Show navigation', 'Autoplay Timeout', and 'Items Per Page' controls.
